Hi Tim and Silvina,

As requested, attached is the “pre-clearance” draft of Federal Strategy to Reduce Childhood Lead Exposures and Associated Health Impacts. This document is provided to you to enable you to inform EPA leadership about its current status. We would be glad to circulate to others as you see fit. Alternatively, you can circulate to others for review. We would like to receive comments from EPA leaders. However, we are not asking for official agency concurrence at this time. The Office of Management and Budget will circulate a revised draft of this document through the LRM process. We expect the LRM review to begin in early May.

Please observe the following:

- This is an internal federal document. Do not circulate this draft outside of the federal government.
- Give the document a high-level policy review. Refrain from line-editing. It will be carefully edited before we send it to OMB.
- Please include suggested text with your comments (use line numbers where possible).
- We invite comments (collated for all of EPA) to be brought forward for discussion at the April 12<sup>th</sup> meeting of the Steering Committee. Written comments are due no later than April 16<sup>th</sup>. Attached is a briefing document for your reference.
- Please send collated EPA comments to [Etzel.Ruth@epa.gov](mailto:Etzel.Ruth@epa.gov) and [Firestone.Michael@epa.gov](mailto:Firestone.Michael@epa.gov)

Thank you.

Sincerely,

Ruth
